

Admin and Clerical Study Day

This course is designed for admin and clerical staff working within the breast screening programme.

The course will provide delegates with a greater understanding of the whole breast pathway, insight into new developments within breast services, and key knowledge and skills to support administrative roles of all levels.

Topics covered:

- Overview of the NHSBSP
- The role of a mammographer /advanced practitioner
- Radiology – what are we looking for?
- Pathology – journey of a specimen
- Breast disease and surgical options
- Basics of breast oncology
- Risk prediction & risk adapted screening
- High risk overview
- How does community engagement impact the screening office?
- Interval cancers
- Communication / Customer service

Cost: £75 - Lunch and refreshments provided.
