

# Portfolio Pathway for Clinical Radiology

The Portfolio Pathway (formerly CESR) is the route to specialist registration for doctors who have not completed a GMC-approved training programme.

This session will be delivered by the GMC Specialist Applications Team - they prepare applications for specialist registration for clinical evaluation either by the Royal College of Radiologists or in-house Specialist Associates and ultimately issue the decision on whether an application is successful or not.

The session will explain the portfolio pathway for clinical radiology, how to successfully navigate it and how to support colleagues going through it.

## When:

Friday 19th Sept 2025,  
10am - 12pm

## Where:

Virtual,  
Microsoft Teams

## Programme:

- Portfolio pathway (previously CESR): General steps
- Clinical radiology specific information
- Q & A
