

National Breast Imaging Academy

Fundamentals of image-guided intervention in breast patients

When: 9am–5pm, Friday 22nd Jan 2027

Format: Virtual via Microsoft Teams

This educational event explains the indications, options, practical considerations, challenges and potential complications of image-guided intervention in the breast patients.

Principles are illustrated by case examples including drainage, FNA, 14G core biopsy, marker insertion and localisation.

**Ultrasound guided
intervention in the
breast**

**Ultrasound guided
intervention in the
axilla and SCF**

**Stereo and DBT
intervention**

**Localisation
procedures**

**Interesting cases
and interactive
quiz**
